

GEOGRAPHY CURRICULUM COVERAGE

EYFS

GEOGRAPHY INTENT

At Wheatlands, we believe that Geography helps to provoke and provide answers to questions about the natural and human aspects of the world. Children are encouraged to develop a greater understanding and knowledge of the world, as well as their place in it. The geography curriculum at Wheatlands enables children to develop knowledge and skills that are transferable to other curriculum areas and which are used to promote their spiritual, moral, social and cultural development.

Geography is, by nature, an investigative subject, which develops an understanding of concepts, knowledge and skills. We seek to inspire in children a curiosity and fascination about the world and its people which will remain with them for the rest of their lives; to promote the children's interest and understanding of diverse places, people, resources and natural and human environments, together with a deep understanding of the Earth's key physical and human processes.

The curriculum is designed to develop knowledge and skills that are progressive, as well as transferable, throughout their time at Wheatlands Primary and also to their further education and beyond.

Geographhy: The Early Years Foundation Stage

Three and Four Year Olds	Understanding The World		• Use all their senses in hands-on exploration of natural materials. • Begin to understand the need to respect and care for the natural environment and all living things. • Know that there are different countries in the world and talk about the differences they have experienced or seen in photos.
	Mathematics		• Understand position through words alone. For example, “The bag is under the table,” – with no pointing. • Describe a familiar route. • Discuss routes and locations, using words like ‘in front of’ and ‘behind’.
Reception	Understanding The World		• Draw information from a simple map. • Recognise some similarities and differences between life in this country and life in other countries. • Explore the natural world around them. • Recognise some environments that are different to the one in which they live.
Early Learning Goals	Understanding The World	People, Culture and Communities	• Describe their immediate environment using knowledge from observation, discussion, stories, non-fiction texts and maps. • Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and (when appropriate) maps.
		The Natural World	• Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class. • Understand some important processes and changes in the natural world around them, including the seasons.
